Synthetic Greens Project

Sorry to tell you that Covid has again intervened! Berry Sports Surfaces has finished Queenstown and Wanaka contracts. However, the team had worked some 28 days (including week ends) in a row and needed to return to Australia both for family reasons and needing a break.

Unfortunately, the Covid outbreak which since has locked down virtually all Australian states, will prevent them from returning at the expected time until government regulations permit.

So, our project will be delayed – The Berry team are pretty upset about this too, but obviously this is beyond their or our control. It will hopefully commence around 20 August but not in time to have greens available for either the ladies tournament or even our proposed opening date of 11 September – the Board will consider changes available. But we have bitten the bullet before and annoying as it is, we can all think of a few worse things which can happen!!

We will keep you informed but as least we can ensure we have all our ducks in a row ready to launch when the firing gun does go.
